#### **Matching Enterprises and International Bachelor Students in Professional Higher Education – New Challenges for Professional Higher Education Institutions in Denmark**

Gustav Kristensen  
Southern Denmark University, Odense (DK)

Based on a survey conducted in 2009 this paper investigates the challenges for University colleges in Denmark when matching international business and communication students to companies.

The paper describes using econometric methods 3 areas of challenges:

1. International students and student jobs
2. International students and compulsory internships
3. International students and companies for final thesis

The survey shows that the challenges differ across students national background and across the institutions.
